Rotech
THE CODE MARK OF EXCELLENCE

Rotech Seiko X72

Maintenance-free printer, ideal for large area printing up to 72mm

This innovative printer and its performance is completely unaffected by its surrounding environment, no matter how harsh or volatile. Its benefits include:

High-resolution

Capable of printing high-quality, verifiable barcodes, including 2D/QR codes.

Reduce downtime

No moving parts, meaning fewer breakdowns. No startup or shutdown procedure, meaning less downtime.

Easy integration

Easily compatible with most format design/ ERP systems. Industry 4.0 ready.

Reduces waste

Only print stock as and when you need it. Reduces human errors and waste associated with labelling.

Integrate the X72 into your production line

The X72's ink tank is directly connected to the printhead, removing the need for expensive, moving parts and servicing.
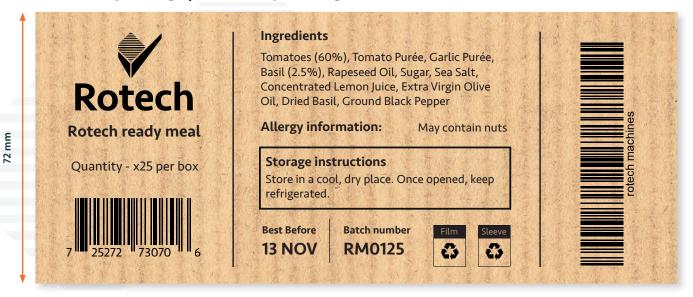

The X72 is compact, easy to integrate and will work smoothly alongside a range of packaging machinery, including:

- **Flow wrappers**

- **Conveyors**

- **Case sealers**

- **Off-line feeding systems**

"The X72 unit proved itself very quickly- zero downtime, was easy to use and accommodated all our print data requirements. "
